Bachelor of Science: Computer Science

June 2022 – April 2025

Bishop Heber College

Certifications

- Microsoft-Excel
- Python
- Javascript
- Full Stack Development
- Jetpack Compose

Projects

FoodLink – Android Application (Kotlin, Firebase)

FoodLink is an Android application developed to reduce food waste by connecting food donors with people in need. The app allows users to easily upload details of available food, including images, quantity, location, and contact information. It features secure user authentication, real-time data storage using Firebase, and a user-friendly interface for managing donated items. This project demonstrates my skills in mobile app development, database integration, and designing practical, real-world solutions
